ABOUT ME

Self-taught and motivated Web Developer skilled in quickly learning new technologies and building innovative web applications. Proficient in front-end frameworks, back-end development, and database management. Experienced in solving complex problems, creating responsive designs, and improving web performance. Seeking a collaborative role in a fast-paced development team.

KEY PROJECTS

Full-Stack E-Commerce Platform: Season Chai ↗

Technologies: Next.js, React.js, Tailwind, MySql, Prisma.

- Built role-based authentication for secure user and admin access.
- Designed an admin panel for product management, sales tracking, and category organization.
- Created real-time dashboards to monitor orders, carts, and revenue.
- Integrated Stripe for secure payments using webhooks.
- Improved server performance by minimizing redundant requests.

RESTful API: Vinyl Store ↗

Technologies: Node.js, Nest.js, PostgresQL, TypeORM, Jest.

- Developed a RESTful API with JWT-based authentication.
- Created API documentation using Swagger for seamless integration.
- Added advanced query features like pagination, search, and sorting.
- Wrote unit tests using Jest to ensure reliability and coverage.
- Integrated Stripe payments with real-time transaction updates.

Freelance Website: Swoje Ściany ↗

Technologies: Astro.js, Tailwind, SEO, Figma.

- Designed and implemented responsive website layouts.
- Improved site performance and visibility with SEO
- Delivered a fully functional and secure website.

CERTIFICATIONS

- **Node.js, Express.js, and MongoDB** – Udemy (2023)
- **React from Scratch** – Udemy (2023)
- **Vanilla JavaScript from Scratch** – Udemy (2023)

EDUCATION

Lviv State University of Internal Affairs | 2016-2020

Bachelor's Degree in Law
